PROFILE

Undergraduate Software Engineering student with practical experience in **full-stack web and mobile development**. Skilled in building responsive, scalable applications using **HTML, CSS, JavaScript, TypeScript, React, React Native, Node.js, Express.js, and Java (Spring Boot)**. Experienced with **REST APIs, Git/GitHub workflows, and relational/non-relational databases**. Passionate about writing clean, maintainable code and eager to contribute to collaborative, real-world software projects.

TECHNICAL SKILLS

Programming Languages

Java, JavaScript (ES6+), TypeScript, Python

Frontend Development

React.js, React Native, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend Development

Node.js, Express.js, Spring Boot, RESTful API Development

Databases

MySQL, MongoDB

Tools & DevOps

Git, GitHub, Docker (Basics), Linux Command Line, Postman

PROJECTS

SpareWay - Online Vehicle Spare Parts Marketplace 🌐

Web-based platform connecting buyers and sellers with secure, role-based operations

SpareWay is a full-stack web application that facilitates buying and selling of vehicle spare parts. Buyers can search, browse, and purchase parts, while sellers can efficiently manage listings. Admins oversee user management and maintain secure operations. The project showcases integration of **Spring Boot (Backend) and HTML/CSS/Bootstrap/JavaScript (Frontend)**, with **JWT authentication, role-based access control, RESTful APIs, MySQL, and email notifications**. Dashboards are tailored for buyers, sellers, and admins, highlighting practical use of modern web development and secure application design.

Ceylon Spirits - Hotel Spirits & Beverage Management Platform 🌐

Full-stack MERN application for hotel beverage ordering and management

Ceylon Spirits is a **full-stack web application (MERN)** designed for hotels to manage and sell spirits and beverages efficiently. Users can browse, search, and order drinks, while hotel admins can manage inventory, track orders, and oversee operations. Features include **secure JWT authentication, RESTful APIs, responsive UI, and admin dashboards**, demonstrating practical full-stack development skills in a real-world hospitality context.

Smart Spend - Mobile Expense Tracker 🌐

React Native & Firebase mobile app for personal finance management

Smart Spend is an advanced **React Native** mobile application with **Firebase** backend, designed to simplify personal finance tracking. Users can securely log income and expenses, view real-time analytics, and monitor their financial health through a dynamic dashboard. Key features include **secure Firebase authentication, categorized transaction management, profile customization, smart category system, and responsive UI with animated components**, demonstrating practical mobile app development skills.

EDUCATION

Graduate Diploma in Software Engineering (GDSE) <i>Institute of Software Engineering (IJSE)</i>	2024 – Present
Diploma in English <i>Esoft Metro Campus</i>	2023 – 2024
