PROFILE

Undergraduate Software Engineering student with hands-on experience in full-stack web application development, specializing in Java and React-based technologies. Skilled in designing and developing scalable applications, building RESTful APIs, and working across the Software Development Lifecycle (SDLC). Experienced in debugging, unit testing, and ensuring application performance and reliability. Passionate about learning new technologies and contributing effectively to collaborative software development teams.

TECHNICAL SKILLS

Programming Languages

Java, JavaScript (ES6+), TypeScript, Python

Frontend Development

React.js, React Native, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend Development

Node.js, Express.js, Spring Boot, RESTful API Development

Databases

MySQL, MongoDB

Tools & DevOps

Git, GitHub, Docker (Basics), Linux Command Line, Postman

PROJECTS

Lumina Beauty - Online Cosmetics E-Commerce Platform

03/2026 – Present

Tech: React, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

Live URL : sky-rek-front-end.vercel.app 🔗

Frontend : https://github.com/Hirusha-silva/Sky_Rek_Front_End 🔗

Backend : https://github.com/Hirusha-silva/SkyRek_BackEnd 🔗

- Developed a full-stack e-commerce application with modern, mobile-responsive UI
- Implemented **JWT** authentication and **Google OAuth** login
- Built **OTP-based** password reset system using **email services**
- Developed shopping cart and product management system
- Created RESTful APIs with **Node.js & Express.js**
- Managed data using **MongoDB (Mongoose)**
- Used **Supabase** for image storage
- Integrated **Axios** for frontend-backend communication

- Conducted manual testing across multiple web browsers and mobile devices to ensure responsive **UI** and **UX** consistency
- Tested and validated RESTful API endpoints using **Postman** to ensure data accuracy and error handling
- Deployed using **Vercel** (frontend) and **Render** (backend)
- Performed API testing using Postman to validate JWT authentication, user registration, and secure cart management endpoints

SpareWay - Online Vehicle Spare Parts Marketplace

Tech: Spring Boot, MySQL, Javascript, HTML, CSS, Bootstrap

GitHub: https://github.com/Hirusha-silva/Second_Semester_Final_Project 

- Developed a full-stack web application for buying and selling vehicle spare parts
- Built RESTful APIs using **Spring Boot**
- Implemented **JWT** authentication with role-based access control
- Developed responsive frontend using **HTML**, **CSS**, **Bootstrap**, and **JavaScript**
- Created dashboards for buyers, sellers, and admins
- Designed and managed **MySQL** database
- Implemented email notifications for orders and user interactions
- Ensured security, scalability, and maintainability using best practices
- Tested and validated RESTful API endpoints using **Postman** to ensure data accuracy and error handling
- Conducted role-based manual testing to verify correct access controls and dashboard functionalities for Buyers, Sellers, and Admins.

Ceylon Spirits - Hotel Spirits & Beverage Management Platform

Tech: MongoDB, Express.js, React.js, Node.js, JavaScript, TypeScript

Frontend : <https://github.com/Hirusha-silva/Ceylon-Spirits-FE> 

Backend : <https://github.com/Hirusha-silva/Ceylon-Spirits-BE> 

- Expanded a full-stack application for hotel beverage ordering and inventory management
- Built RESTful APIs using **Node.js** & **Express.js**
- Developed responsive UI using **React.js** (**JavaScript** & **TypeScript**)
- Implemented **JWT** authentication for secure access and session management
- Created admin dashboard for inventory and order tracking
- Implemented product search, browsing, and ordering features
- Managed data using **MongoDB**
- Ensured performance, scalability, and security using best practices

Smart Spend - Mobile Expense Tracker

Tech: React Native, Firebase, JavaScript

GitHub : https://github.com/Hirusha-silva/smart_spend 

- Developed a mobile app for tracking personal income and expenses
- Built responsive UI with **React Native**
- Integrated **Firebase** Authentication for secure login
- Used Firebase real-time database for dynamic data updates
- Designed dashboard with analytics to monitor financial activities
- Implemented categorized transaction management
- Added profile management and customization features
- Applied UI/UX best practices including animations and responsive design
- Conducted cross-device manual testing on multiple **Android/ iOS** environments to validate responsive UI and animations
- Tested Firebase Authentication workflows and verified real-time database synchronization to ensure accurate dynamic data updates

SOFT SKILLS

- Strong problem-solving and analytical thinking
- Adaptability and quick learning ability
- Team collaboration and teamwork
- Time management and ability to meet deadlines

EDUCATION

Graduate Diploma in Software Engineering (GDSE), 2024 – Present
Institute of Software Engineering (IJSE)

Diploma in English, *Esoft Metro Campus* 2023 – 2024
